

An introduction to probabilistic programming with PyMC3

Sean Meling Murray and Solveig Masvie

1. desember 2019

Table of contents

Motivation

Bayesian statistics

Markov Chains

A slide with bullet points

- Represent Abelian groups on the computer
- Compute on Abelian groups
- Solve equations, factor group homomorphisms

A slide with a theorem and a proof.

Theorem (Integral)

$$\int_a^b f(x) dx = F(b) - F(a)$$

Bevis.

Here's the proof.
